## General Conditions

### §1 Field of Application

Solely these conditions are valid. We will accept contradictory conditions or requirements of the orderer / buyer which are variant to these conditions, only if we have definitely approved the validity in writing. These conditions are also valid for business in the future with the orderer / buyer, as far as related legal transactions are concerned, specially such as consulting, information, etc.

### §2 Offer and Placing of Order

Our offers are subject to alteration without notice. The prices and technical data given in catalogues, brochures, advertisements and price lists or in documents attached to the offer are subject to alteration. A contract is concluded when a written offer(s) / confirmation of order / invoice has/have been carried out. The prices are valid for 3 months from the date given in the confirmation of order / invoice. Please note the turnover tax provided by law given in all quotations. When long term delivery dates are agreed upon, then our prices valid on the date of delivery will be charged. The offer can be accepted by delivering the object purchased. An order covers the authorization to carry out test-drives on our part.

### §3 Orders and Conclusion of Contract per Internet

A contract with Gemballa Automobiltechnik GmbH & Co. KG covers only orders and deliveries within the Federal Republic of Germany. Orders outside the Federal Republic of Germany are forwarded as an inquiry to the importer in charge, who will send you a corresponding offer for your order. When ordered per internet, you will receive an email once the ordering process is over. The conclusion of the contract is reached by confirmation and the object purchased will be delivered ex works.

### §4 Delivery

As far as no terms of delivery are agreed upon, we will deliver the object purchased on the next possible date. Operating interruptions, traffic disturbances, labour strikes, raw material shortage or other inability incurred through no fault relieve us at all events of meeting delivery terms and do not give the buyer the right of indemnity or withdrawal from contract. We are entitled to carry out partial deliveries, unless partial fulfilment of the contract is of no interest to the customer.

### §5 Devolution Risk and Purchase

The cost and risk of all consignments and in case of re-consignment will be borne by the buyer. The risk devolves on to the buyer in accordance with § 447 section 1 BGB as soon as we hand over the goods to the forwarding agent respectively to the orderer / buyer. This is also valid for consignments within Leonberg, our area of performance. When we forward goods in our own vehicles, the risk devolves on to the buyer at loading. Should the buyer refuse to accept goods sent to him, then we are not bound to re-send the goods to him. We are then entitled to fix a time limit of 14 days to the buyer to collect the goods from us and to threaten with withdrawal from contract. If the buyer should not collect the goods from us within the fixed time limit, then we are entitled to withdraw from the contract and to demand indemnity on grounds of failure on their part to perform, namely 15% for vehicles and 20% for spare parts and other performances, of the gross invoice amount without having to prove the amount of damage incurred to us. This indemnity does not exist, in case the buyer proves that a damage was not caused at all or that the damage caused does not amount to the lump-sum. We are always also entitled to assert a damage that exceeds the above mentioned lump-sum. The above regulation is valid when it is agreed that the goods should be

collected, as far as a delivery time of ... is agreed upon by GEMBALLA.

### §6 Reservation of Title / Contractual Lien

a). Delivery of goods are subject to reservation of title of the seller till all contractual obligations are fulfilled by the buyer. As long as the reservation of title exists, each amendment to our disadvantage, sale, pledge, protective conveyance or any other transfer to a third party without our written permission is unlawful. The buyer must handle and keep the delivered goods carefully and maintain them in a perfect condition during the period of reservation of title. Destruction, damage and seizure of the delivered objects as well as each change of address of the buyer or the change of location of the goods must be immediately informed to us. In case of seizure, the executing officer must be informed of the reservation of title. All costs incurred due to asserting of our reservation of title will have to be paid by the buyer.
