

PVT PLUS

- + PERFORMANCE
- + DURATION
- + EFFICIENCY

**QUALITY AND
INNOVATION: THE
TECHNICAL EVOLUTION
IMMEDIATELY
AVAILABLE FOR
THE SPARE PARTS
MARKET**

Today **Brembo** provides a preview of **PVT PLUS**,
**the latest technological evolution for brake disc
ventilation, developed** for the spare parts market.
This is a solution which will soon be adopted also for
numerous OE applications.

TO EACH HIS OWN!

Each type of vehicle has **different problems** in terms
of the braking system. This is why Brembo engineers
have designed **personalised solutions** in order to
guarantee the best possible braking performance
for each vehicle.

In fact, the new **PVT PLUS** provides **different
geometries for each specific disc**, which ensure that
there is always an **optimised thermal exchange.**
